

DOES YOUR CLUB SUPPORT THIS COMMUNITY PROJECT?

'Original Green Book'

An original project by the Rotary Clubs of Tea Tree Gully, Modbury and Golden Grove in South Australia, the pilot project was officially launched on the 24th May 1999.

Since then many clubs have joined this wonderful community program and more than 400,000 books have been printed and distributed throughout Australia and New Zealand.

What is the Emergency Medical Information Book?

When paramedics are called, a typical scenario is that distraught family members may be unable to give correct details of the patient's condition or the medication they may be on. The paramedics physically have to collect all the Patients medication in the house, obtain a medical history, and take it to the hospital with the patient. *This small book contains patient medical information, medications and medical condition, so a paramedic is able to quickly ready a patient for transport to a hospital.*

Who should have one of these books?

Elderly people living on their own, especially children and adults with chronic and mild medical conditions, in fact all people with any medical condition. *This book must be filled out by the owner (patient) together with their doctor.*

What can you do to create a worthwhile 'community project' for your Rotary Club?

- Contact the EMIB Committee Chairman or visit the WEB site.
- Order a minimum quantity of 250 books, your club's name will be on the cover - *the books cost \$1 each.*
- Distribute the books in your community to Aged Care Homes, through shopping centre promotions, chemist shops and your local neighbourhood - *for a gold coin donation.*

'Recent shopping centre promotion of the EMIB Project.'
